

ANDHIKA SEPTIANSYAH

Full Stack Web Developer

andhikaseptiansyah63@gmail.com | +62 877-2994-9195 | DKI Jakarta

PROFESSIONAL SUMMARY

Information Technology undergraduate student at President University with a strong foundation in web development, graphic design, and cloud computing. Adept at translating business needs into functional digital solutions through hands-on experience in project management and technology implementation. Eager to drive impactful and innovative tech solutions.

WORK EXPERIENCE

PT. Ankara gala wisesa (studyfirst) Full Stack Web developer

January 2026 – March 2026

Link Demo Fluenesia : <https://frontfluenesia.vercel.app/>

- Successfully developed and launched an online Indonesian language course platform, from scratch to a fully functional stage.
- Achieved a 40% improvement in page load speed by building highly responsive and performant user interfaces using React + Vite and TypeScript.
- Designed and implemented a secure backend architecture using Express.js (TypeScript) and Supabase, ensuring 99.9% system uptime during initial testing.
- Integrated a comprehensive student tracking system via PostgreSQL and Supabase Auth, successfully managing database records for student learning progress and content management.

PROJECT

GoRako Waste Management

Event Organizer, Web Developer

- Contributed to the Event Organizer team for the GoRako Waste Management project by planning, promoting, and executing educational activities.
- Developed the campaign's official website featuring interactive quizzes, a waste-sorting game, and a digital reward system.
- Successfully engaged 70 student visitors and achieved a 100% positive feedback rate, effectively raising awareness about proper waste management.

GoKantin Online Food Ordering Website

Event Organizer, Web Developer

- Designed and developed the GoKantin website with comprehensive features such as user login, digital menu, cart system, order tracking, and admin panel.
- Digitized the food ordering process on campus to improve efficiency and ease of access for users.
